**Description:** A resume summary or career profile is a brief statement at the top of your resume.

# Project Report Template

The screenshot shows the Salesforce Object Manager interface. The top navigation bar includes links for Setup, Home, and Object Manager. The main title is "SETUP > OBJECT MANAGER job posting site". On the left, a sidebar lists various configuration tabs: Details, Fields & Relationships, Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, and Record Types. The "Details" tab is selected. In the main pane, the "Description" field is defined as "A subset of the position description which is publicly posted for the purpose of attracting applicants to the position." Other settings shown include API Name (job\_posting\_site\_\_c), Singular Label (job posting site), Plural Label (job posting sites), and various tracking and deployment options.

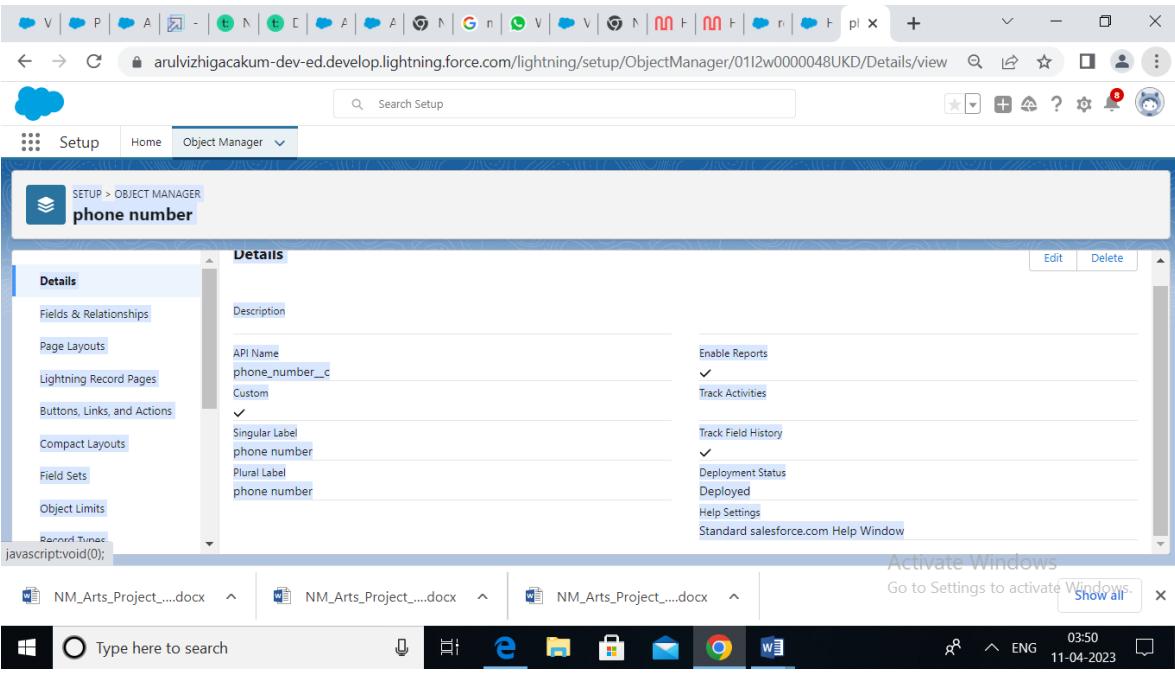

**Description:** A job posting publishing a job offer within a specific recruitment channel in order to close a vacancy.

The screenshot shows the Salesforce Object Manager interface. The top navigation bar includes links for Setup, Home, and Object Manager. The main title is "SETUP > OBJECT MANAGER Position". The left sidebar shows the same list of tabs as the previous screenshot. The "Details" tab is selected. The configuration for the "Position" object is identical to the "job posting site" object, with the same description, API name (Position\_\_c), singular label (Position), plural label (Positions), and various tracking and deployment options.

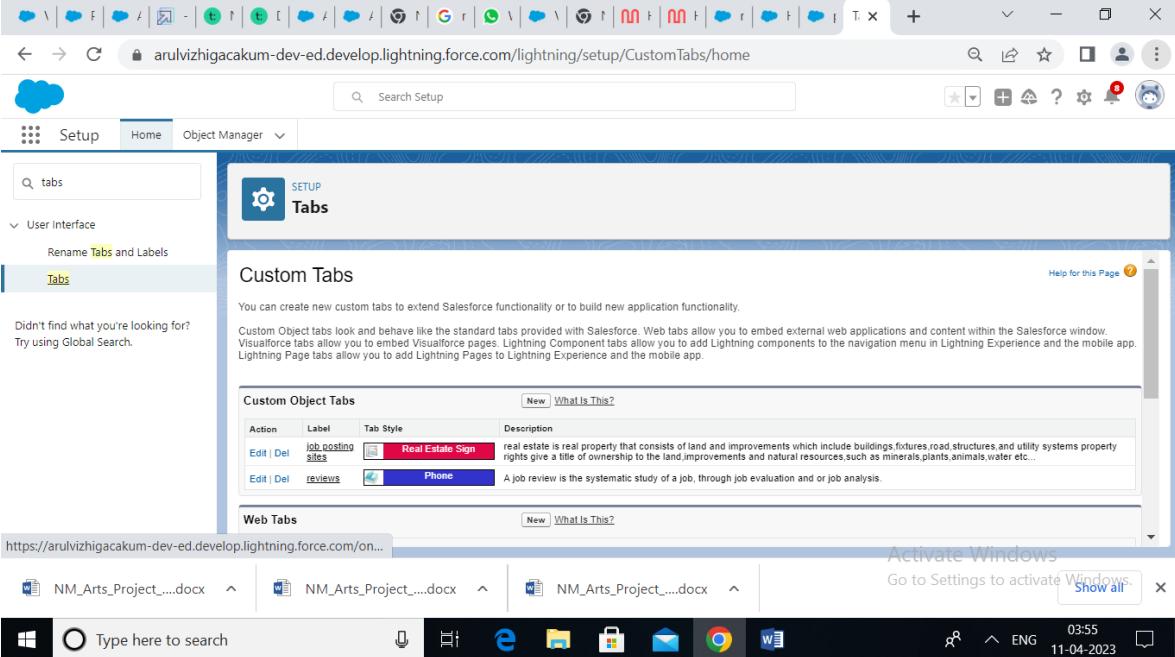

**Description:** A position describes the knowledge, skills, abilities, and duties of a specific position, not the characteristics or traits of the current incumbent.

# Project Report Template

The screenshot shows the Salesforce Object Manager interface. The top navigation bar includes links for Setup, Home, and Object Manager. The main area displays the details for the 'phone number' object. The 'Details' tab is selected, showing fields like API Name (phone\_number\_\_c), Singular Label (phone number), and Plural Label (phone number). Other tabs include Fields & Relationships, Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Objects, and Record Types. A sidebar on the left lists various setup categories. The bottom status bar shows three document tabs and a system message about activating Windows.

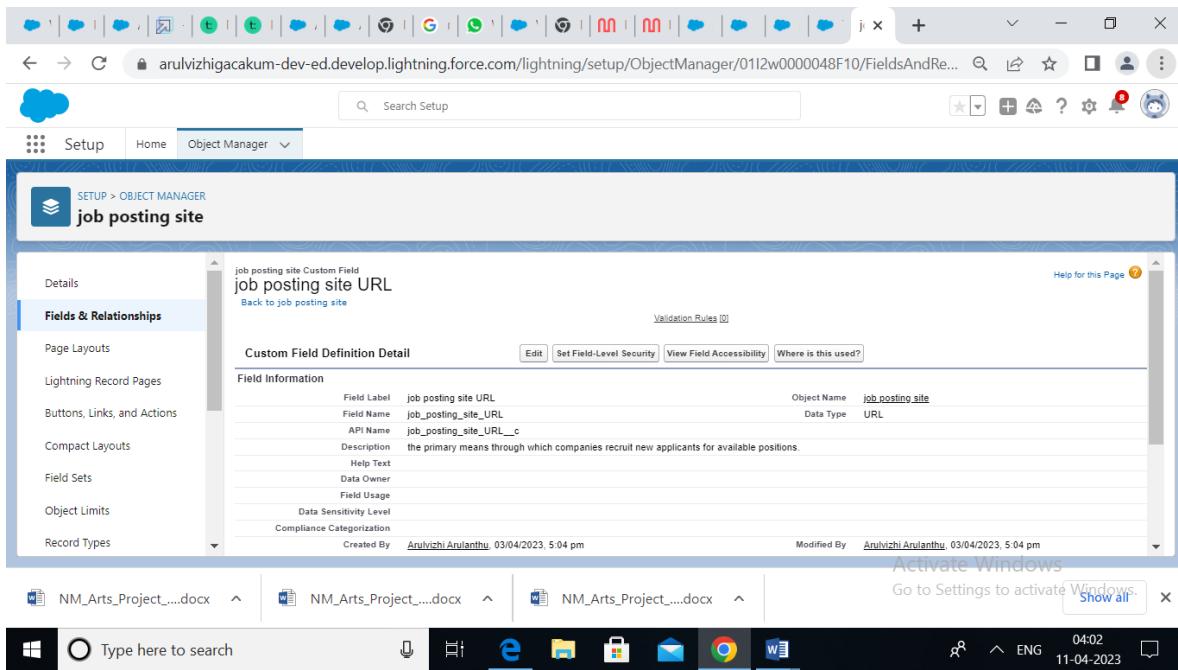

**Description:** A number assigned to a telephone line for a specific phone or set of phones that is used to call that phone.

The screenshot shows the Salesforce Tabs page. The top navigation bar includes links for Setup, Home, and Object Manager. The main area displays the 'Custom Tabs' section under the 'User Interface' category. It shows a table for 'Custom Object Tabs' with two entries: 'Real Estate Signs' (Label: job\_posting, Tab Style: sites) and 'Phone' (Label: reviews, Tab Style: Phone). Below this is a 'Web Tabs' section. The bottom status bar shows three document tabs and a system message about activating Windows.

**Description:** Custom tabs is a browser feature, introduced by chrome that is now supported by most major browsers on android.

# Project Report Template

The screenshot shows the Salesforce Setup interface under the Object Manager. A new field named "job posting number" is being created. The "Record Name" is set to "job posting number" and the "Data Type" is "Auto Number". A preview window shows a table of recent accounts with columns for Account Name, City, and Record Name.

**Description:** A field is an area of grass, for example in a park or on a farm.

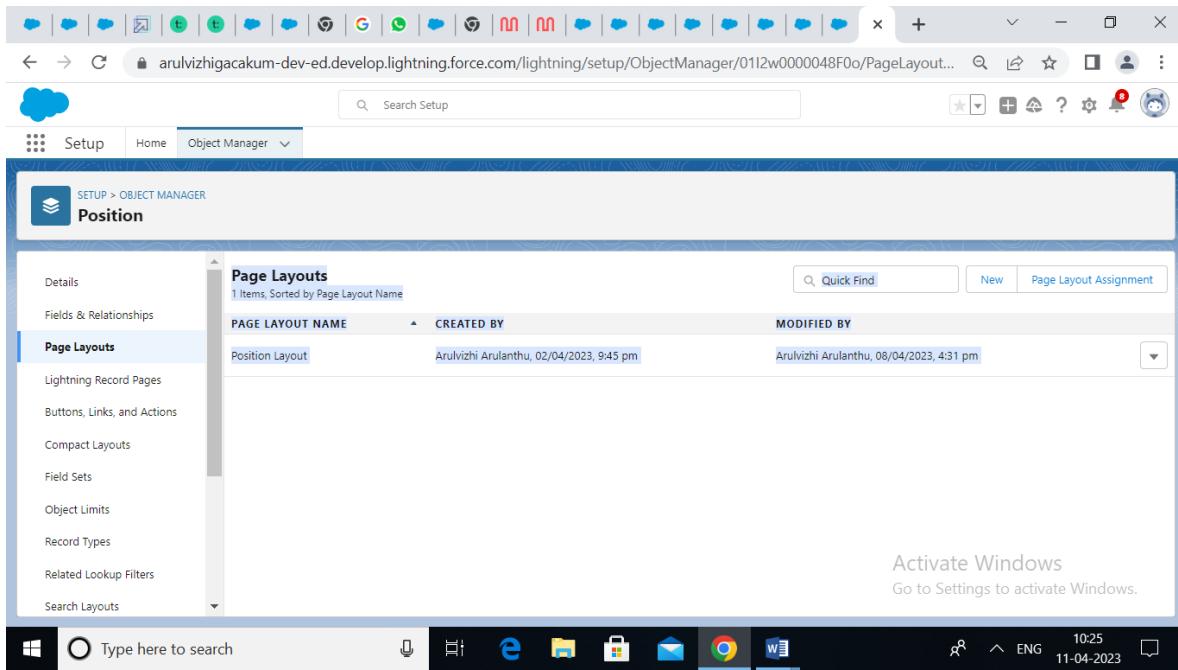

The screenshot shows the configuration of a custom field named "job posting site". The "Field Label" is "job posting site" and the "Field Name" is "job\_posting\_site". The "Data Type" is "Master-Detail". Under "Master-Detail Options", the "Related To" is "job postings" and the "Child Relationship Name" is "job\_postings". The "Sharing Setting" is "Read Only: Allows users with at least Read access to the Master record to create, edit, or delete related Detail records." The "Allow Reparenting" checkbox is checked. A "Lookup Filter" section is present at the bottom.

# Project Report Template

The screenshot shows the Salesforce Object Manager interface. A new custom field named 'Position' is being created for the 'job posting' object. The field is of type 'Master-Detail' and is associated with the 'Position' object. It has a label 'Position' and an API name 'Position\_\_c'. The 'Field Information' section includes fields for Description, Help Text, Data Type, Field Class, and Data Sensitivity Level. The 'Master-Detail Options' section shows 'Related To' is set to 'Position' and 'Sharing Setting' is 'ReadWrite'. Validation rules and lookup filters are also defined.

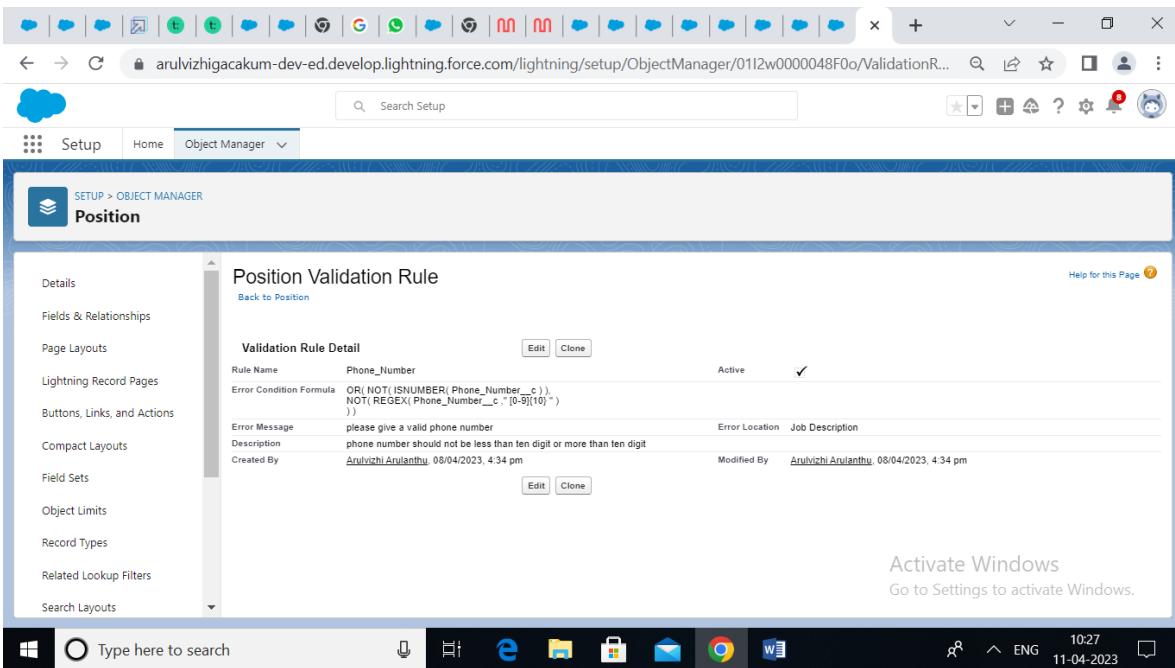

**Description:** Summarizes the essential responsibilities activities qualification and skills for a role.

The screenshot shows the Salesforce Object Manager interface. A new page layout for the 'Position' object is being created. The page layout is titled 'Position Layout' and was created by Arulvizhi Arulanthu on 02/04/2023 at 9:45 pm. The 'Page Layout Assignment' section indicates it is assigned to the 'Position' object. The 'Page Layouts' section shows there is 1 item, sorted by Page Layout Name.

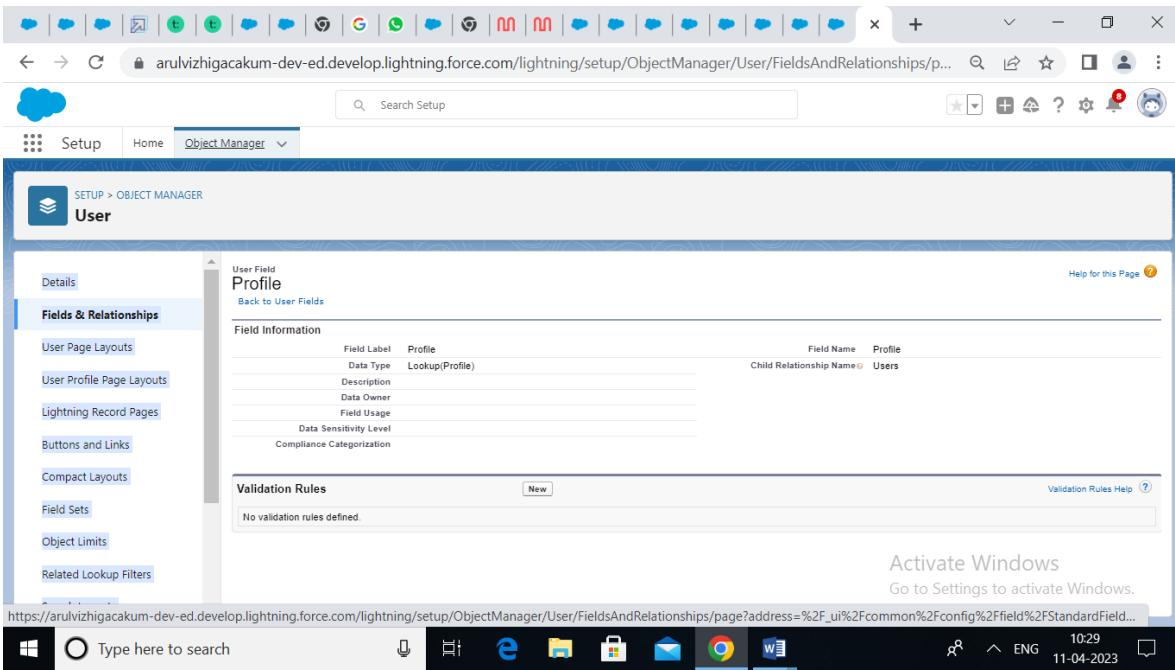

**Description:** classification purposes.

# Project Report Template

The screenshot shows the Salesforce Lightning Object Manager interface for the 'Position' object. On the left, a sidebar lists various setup options like Details, Fields & Relationships, Page Layouts, and Lightning Record Pages. The main content area displays a 'Position Validation Rule' record. The rule is named 'Phone\_Number' and has the formula: OR( NOT(ISNUMBER(Phone\_Number\_\_c) ), NOT( REGEX(Phone\_Number\_\_c, "[0-9]{10}" ) ) ). The error message is 'please give a valid phone number' and the description is 'phone number should not be less than ten digit or more than ten digit'. The rule was created by Arulvizhi Arulanthu on 08/04/2023 at 4:34 pm. The status is Active. A note at the bottom right says 'Activate Windows Go to Settings to activate Windows.'

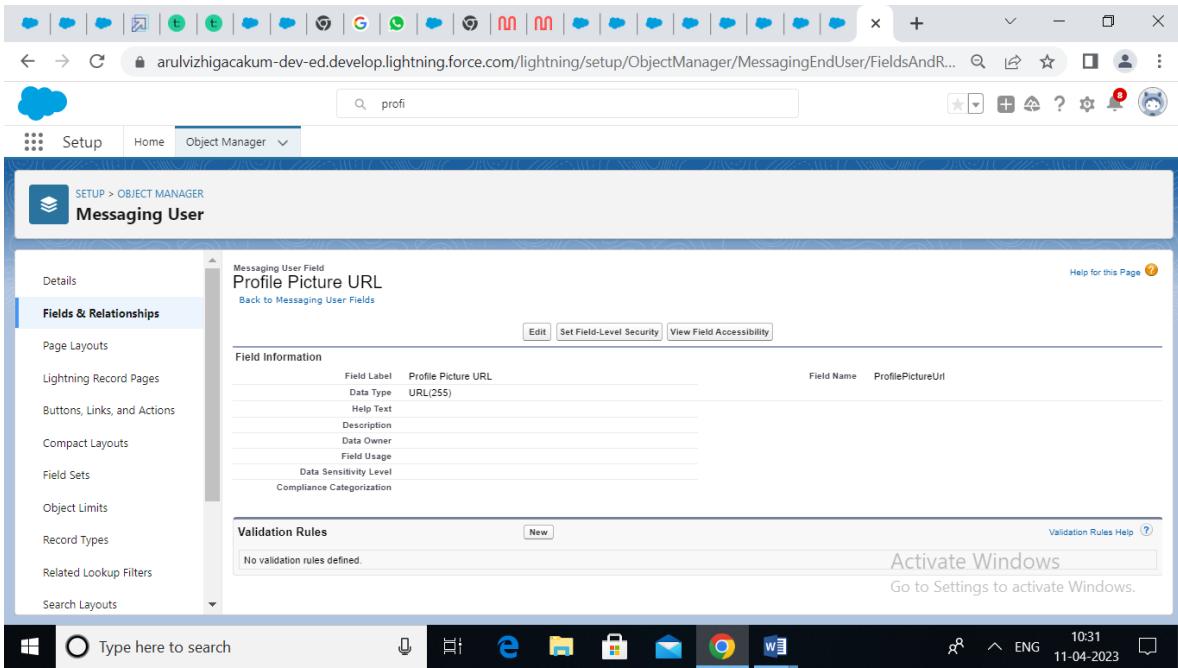

**Description:** A describes the knowledge, skills, abilities, and duties of a specific position, not the characteristics or traits of the current incumbent.

The screenshot shows the Salesforce Lightning Object Manager interface for the 'User' object. On the left, a sidebar lists various setup options like Details, Fields & Relationships, User Page Layouts, and Lightning Record Pages. The main content area displays a 'User Field Profile' record. The field is labeled 'Profile' and its data type is 'Lookup(Profile)'. The profile is 'Users'. A note at the bottom right says 'Activate Windows Go to Settings to activate Windows.'

**Description:** A brief description of your qualifications, experience and accomplishments relevant to the job you are applying for.

# Project Report Template

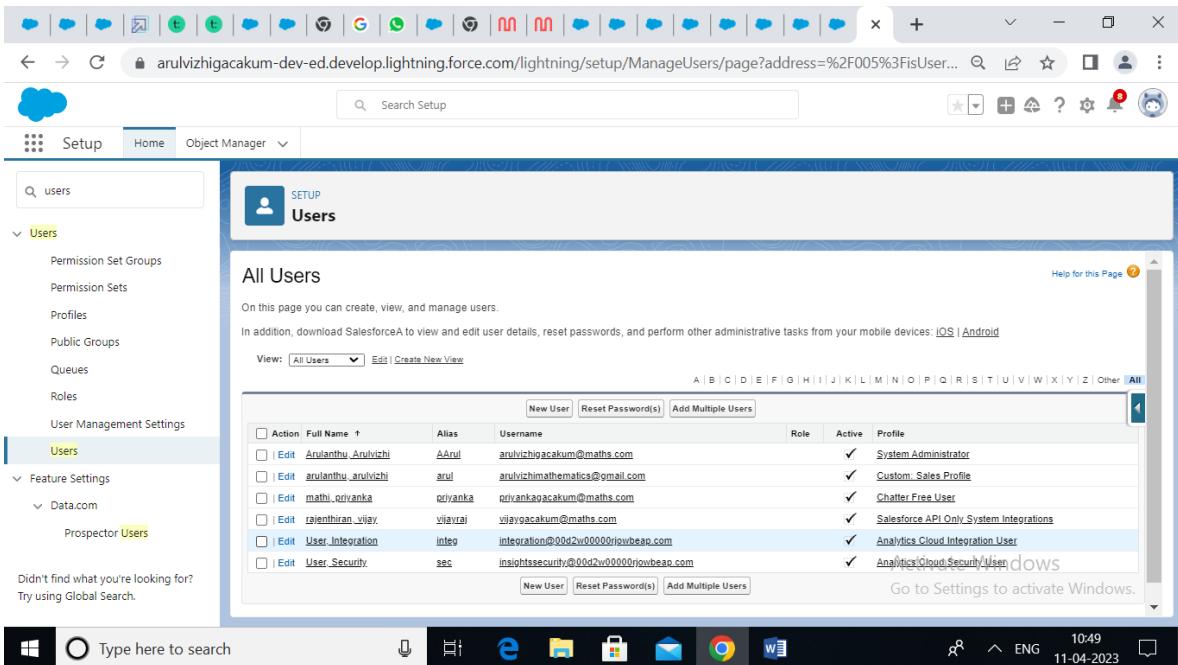

The screenshot shows the Salesforce setup interface for the 'Messaging User' object. The left sidebar has 'Fields & Relationships' selected. The main area displays the 'Profile Picture URL' field details. Field information includes:

- Field Label:** Profile Picture URL
- Data Type:** URL(255)
- Help Text:** (empty)
- Description:** (empty)
- Data Owner:** Data Owner
- Field Usage:** (empty)
- Data Sensitivity Level:** (empty)
- Compliance Categorization:** (empty)

The validation rules section states: "No validation rules defined." A note at the bottom right says "Activate Windows" and "Go to Settings to activate Windows." The system status bar at the bottom shows it's 10:31 on 11-04-2023.

**Description:** A message is communication or statement conveyed from one person or group to another.

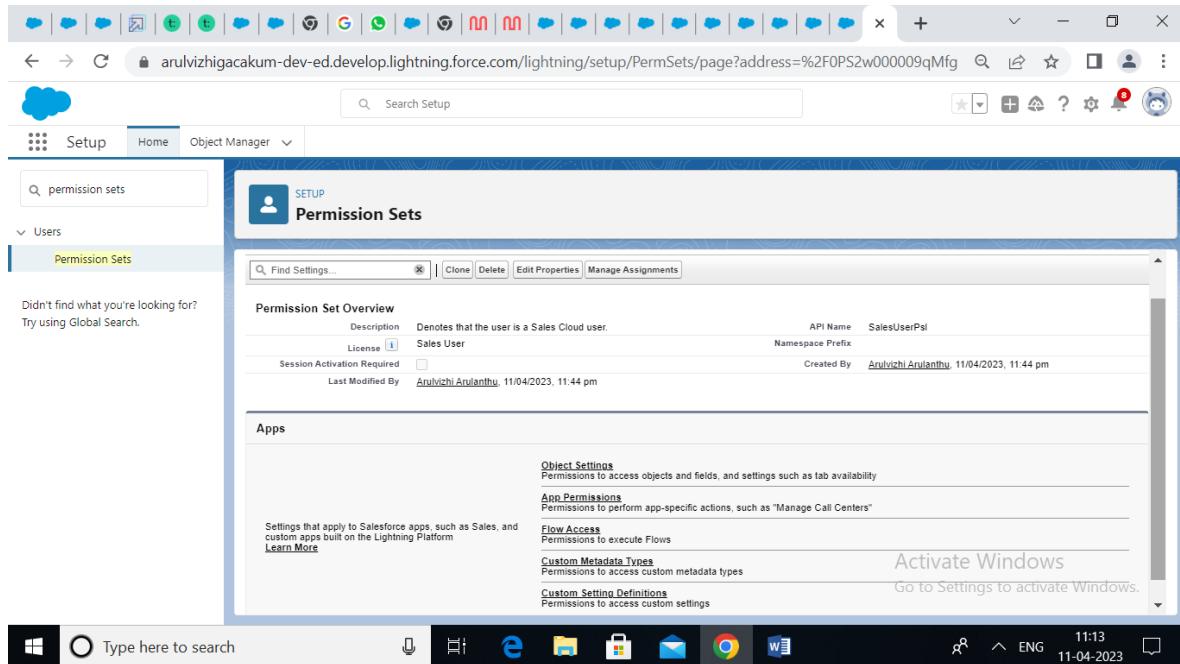

The screenshot shows the 'Users' page in the Salesforce setup interface. The left sidebar has 'Users' selected under 'User Management Settings'. The main area displays a list of users:

Action	Full Name	Alias	Username	Role	Active	Profile
<input type="checkbox"/>	Arunanthu_Arulvizhi	Aarul	arulvizhigacakum@maths.com		✓	System Administrator
<input type="checkbox"/>	arulanthu_arulvizhi	arul	arulvizhimatehmatics@gmail.com		✓	Custom Sales Profile
<input type="checkbox"/>	mathi_ivivanka	ivivanka	ivivankapacakum@maths.com		✓	Chatter Free User
<input type="checkbox"/>	vijaythiran_vijay	vijayraj	vijaygacakum@maths.com		✓	Salesforce API Only System Integrations
<input type="checkbox"/>	User_Integration	integ	integration@00d2w000000jowbear.com		✓	Analytics Cloud Integration User
<input type="checkbox"/>	User_Security	sec	insightssecurity@00d2w000000jowbear.com		✓	Analytics Cloud Security User

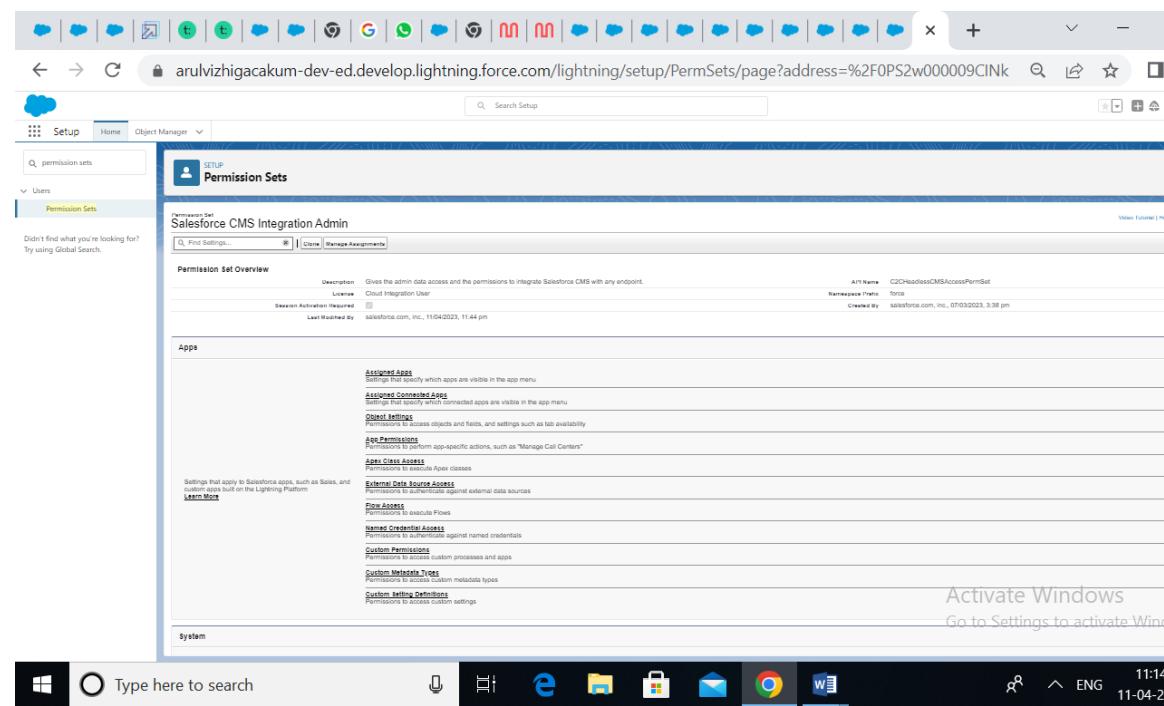

A note at the bottom right says "Go to Settings to activate Windows." The system status bar at the bottom shows it's 10:49 on 11-04-2023.

**Description (users):** A user is someone who employs or uses a particular think.

# Project Report Template

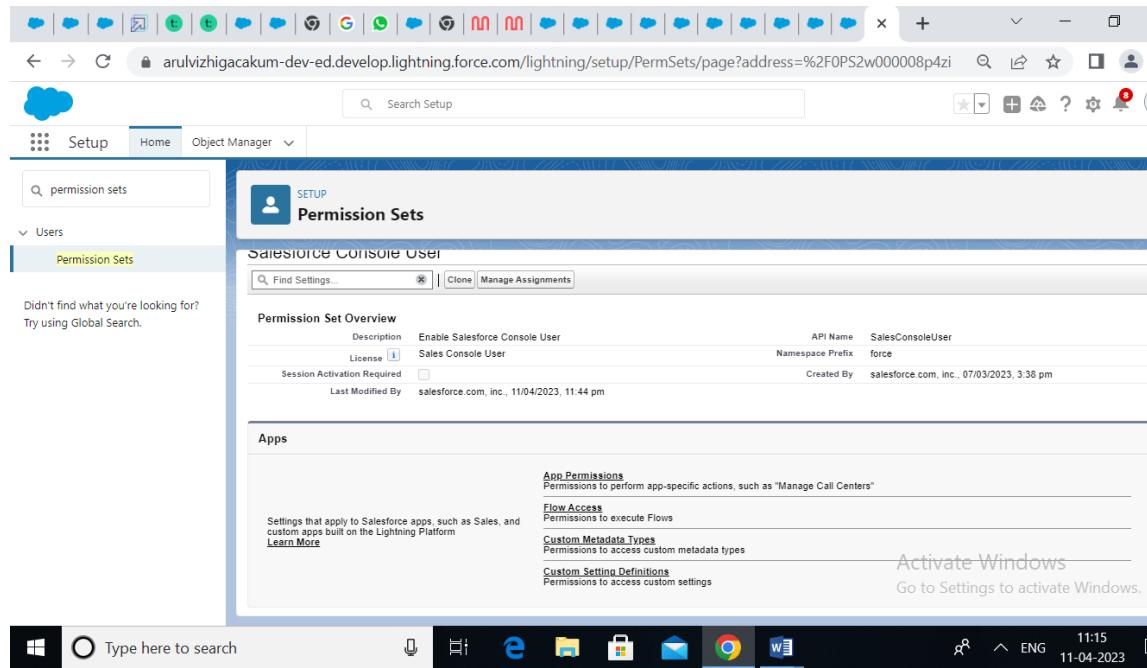

The screenshot shows the Salesforce Setup interface under the 'Permission Sets' section. The page title is 'Permission Sets'. A search bar at the top right contains 'Search Setup'. Below it, a navigation bar includes 'Setup', 'Home', and 'Object Manager'. On the left, a sidebar shows 'Users' and 'Permission Sets' selected. A message says ' Didn't find what you're looking for? Try using Global Search.' The main content area displays the 'Permission Set Overview' for the 'Sales User' permission set. It includes fields for 'Description' (Denotes that the user is a Sales Cloud user.), 'License' (Sales User), 'Session Activation Required' (unchecked), 'Last Modified By' (Arulvizhi Anilanthu, 11/04/2023, 11:44 pm), 'API Name' (SalesUserPst), and 'Namespace Prefix' (SalesUserPst). Below this is a 'Apps' section with various settings like Object Settings, App Permissions, Flow Access, Custom Metadata Types, and Custom Setting Definitions. A note on the right says 'Activate Windows' and 'Go to Settings to activate Windows.' The bottom of the screen shows a Windows taskbar with icons for File Explorer, Edge, File, Mail, and others.

This screenshot shows the same Salesforce setup interface but for a different permission set: 'Salesforce CMS Integration Admin'. The page title is 'Permission Sets'. The main content area displays the 'Permission Set Overview' for the 'Cloud Integration User' permission set. It includes fields for 'Description' (Gives the admin data access and the permissions to integrate Salesforce CMS with any endpoint.), 'License' (Cloud Integration User), 'Session Activation Required' (unchecked), 'Last Modified By' (salesforce.com, Inc., 11/04/2023, 11:44 pm), 'API Name' (C2CHbalessCMSAccessPermSet), and 'Namespace Prefix' (force). Below this is a 'Apps' section with various settings like Assigned Apps, Assigned Connected Apps, Object Settings, App Permissions, Apex Class Access, External Data Source Access, Flow Access, Named Credential Access, Custom Permissions, Custom Metadata Types, and Custom Setting Definitions. A note on the right says 'Activate Windows' and 'Go to Settings to activate Windows.' The bottom of the screen shows a Windows taskbar with icons for File Explorer, Edge, File, Mail, and others.

**Description: permission sets extend users functional access without changing their profiles.**

# Project Report Template

The screenshot shows the Salesforce Setup interface with the 'Permission Sets' page open. A specific permission set, 'Salesforce Console User', is selected. The details pane shows the following information:

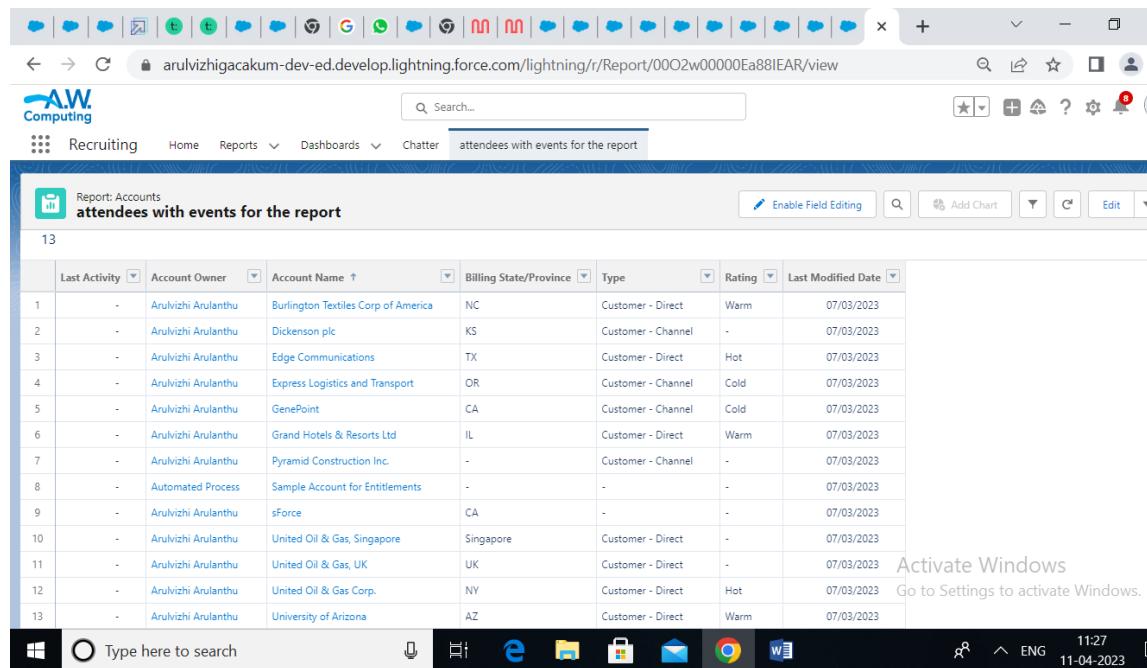

- Description:** Enable Salesforce Console User
- License:** Sales Console User
- Session Activation Required:**
- Last Modified By:** salesforce.com, inc., 11/04/2023, 3:38 pm
- API Name:** force
- SalesConsoleUser**
- Namespace Prefix:** force
- Created By:** salesforce.com, inc., 07/03/2023, 3:38 pm

The 'Apps' section lists several app permissions:

- App Permissions:** Permissions to perform app-specific actions, such as "Manage Call Centers".
- Flow Access:** Permissions to execute Flows.
- Custom Metadata Types:** Permissions to access custom metadata types.
- Custom Setting Definitions:** Permissions to access custom settings.

At the bottom right, there is a message: "Activate Windows" and "Go to Settings to activate Windows."

**Description(permission set):** A permission sets is a template that you create and maintain that defines a collection of one or more IAM policies.

The screenshot shows a report titled 'Report: Accounts attendees with events for the report'. The table contains the following data:

	Last Activity	Account Owner	Account Name	Billing State/Province	Type	Rating	Last Modified Date
1	-	Arvizhi Arulanthu	Burlington Textiles Corp of America	NC	Customer - Direct	Warm	07/03/2023

- ADVANTAGES :

- ❖ **Time-saving:** A recruiting assistant can help HR professionals save time by automating certain tasks, such as resume screening, scheduling interviews, and sending follow-up emails.
- ❖ **Increased efficiency:** By automating certain tasks, recruiting assistants can help HR professionals focus on more strategic activities, such as developing recruitment strategies, engaging with candidates, and building relationships with hiring managers.
- ❖ **Consistency:** Recruiting assistants can help ensure that the recruitment process is consistent and fair for all candidates, by using pre-defined criteria and eliminating human bias.
- ❖ **Scalability:** As a company grows and the volume of resumes and job applications increases, recruiting assistants can help HR professionals manage the recruitment process more efficiently.
- ❖ **Improved candidate experience:** With faster response times and more frequent communication, recruiting assistants can help improve the overall candidate experience and increase the likelihood of a successful hire

**DISADVANTAGE:**

- **Limited decision-making:** Recruiting assistants can only automate certain tasks, and they may not be able to make complex decisions or understand the nuances of human behaviour that HR professionals can.
- **Lack of personalization:** Candidates may feel that their applications are being processed by a machine rather than a human, which can create a negative perception of the company.
- **Technical issues:** Recruiting assistants rely on technology, which can sometimes fail or produce errors. This can cause delays or errors in the recruitment process.
- **Cost:** Recruiting assistants may require significant investment in technology and training, which may not be feasible for smaller companies.

- **Ethical concerns:** There are ethical concerns about the use of automation in recruitment, particularly with regard to data privacy and discrimination. HR professionals need to ensure that recruiting assistants are used in a fair and transparent manner.

# Project Report Template

## • APPLICATIONS

- i. **Applicant Tracking Systems (ATS):** These software programs are designed to help manage the recruitment process by tracking job applications, resumes, and candidate information. ATS can automate many recruitment tasks, such as resume screening, interview scheduling, and candidate communication.
- ii. **Chatbots:** Chatbots are computer programs that simulate human conversation. They can be used to answer frequently asked questions from candidates, screen job applications, and schedule interviews.
- iii. **Virtual Assistants:** Virtual assistants are digital assistants that can perform a wide range of tasks, including scheduling meetings, sending emails, and managing documents. HR managers can use virtual assistants to help with recruitment tasks, such as scheduling interviews and sending follow-up emails.
- iv. **Video Interviewing Platforms:** These platforms allow HR managers to conduct video interviews with candidates remotely. Some platforms use AI to analyze candidate responses and provide feedback to HR managers.
- v. **Social Media Recruitment Tools:** These tools help HR managers find and engage with potential candidates on social media platforms, such as LinkedIn and Twitter. They can automate many of the tasks associated with social media recruitment, such as posting job ads and reaching out to candidates.

## CONCLUSION:

Recruiting assistants for human resources managers come in different forms, including software programs, chatbots, virtual assistants, and AI-powered tools. These applications can help automate various recruitment tasks, such as candidate sourcing, screening, scheduling, and communication. By using recruiting assistant tools, HR managers can save time, reduce administrative workload, improve efficiency, and increase the quality of hires. It's important to evaluate different tools and choose the ones that best fit your organization's needs and recruitment goals. Additionally, it's crucial to ensure that these tools are used fairly.

## SCOPE FUTURE

- **Increased Automation:** With advancements in artificial intelligence and machine learning, recruiting assistant tools are likely to become even more automated. AI algorithms can analyse resumes, social
